# INTRODUCTION

In Canada, pensions are a major economic force. In 2021, research by the Canadian Centre for Economic Analysis found that Canada's public sector pension plans (CPSPPs) alone supported 877,100 jobs and 55,500 businesses across Canada, produced \$33.1 billion in annual wages, and created \$21.4 billion in tax revenue. At the time, CPSPPs included 3.41 million active and 1.85 million retired members. CPSPPs are a benefit to Canada's economy as they are a critical source of retirement income, representing 40% of all private retirement income nationally. CPSPPs contribute \$82 billion in GDP, equivalent to 3% of the Canadian economy. Common examples of occupations of CPSPP members are teachers, healthcare workers, engineers, scientists, maintenance workers, food service workers, police, and firefighters.

## Currently in Palestine

As of June 11, 2025, the Office for the Coordination of Humanitarian Affairs in the occupied Palestinian territory (oPt), has reported:

- Mass casualties as a result of attacks on Palestinians in the Gaza Strip attempting to access food supplies;
- Nasser Medical Complex in Khan Younis is facing an ongoing imminent attack;
- Israeli continues to escalate bombardment from the air, land, and sea across the Gaza Strip;
- Between March 18 and June 11 2025, more than 664, 800 Palestinians in the Gaza Strip were displaced;
- The death toll in the Gaza Strip is officially at 55,104, but more accurately in the hundreds of thousands;

- In May 2025 alone, 18 journalists were murdered, bringing the total Palestinian journalists killed since October 2023 to 227;
- Between May 27 and June 2, the IOF killed 4 and injured 73 Palestinians in the West Bank;
- The IOF obstructed access to health care, and enforced movement restrictions on 2,800 residents of Turmus'ayya for at least nine days;
- Demolition of 23 Palestinian-owned structures in the West Bank, resulting in 21 people being forcibly displaced;
- Illegal Israeli settlers continued violent attacks, with at least 32 documented between May 27 and June 2; and
- Also between May 27 and June 2, 45 Palestinian-owned fruit / olive trees were destroyed and 24 vehicles vandalized.

## LEGAL CONTEXT

The Canadian financial sector is complicit in the ongoing violations of international law by Israel in the oPt and occupied Syrian Golan through a variety of institutional practices, and policies, as well as through their actual investments. These actions and omissions contravene international law, including those articulated in the 2024 International Court of Justice (ICJ) Advisory Opinion (2024 ICJ AO).

In their October 2024 Position Paper, the UN Independent International Commission of Inquiry on the Occupied Palestinian Territory, including East Jerusalem, and Israel clearly articulated State requirements for implementing the 2024 ICJ AO.

“States must:

- abstain from entering into economic or trade dealings with Israel concerning the Occupied Palestinian Territory or parts thereof which may entrench its unlawful presence in the territory...(para 29)
- cease all financial, trade, investment and economic relations with Israel that maintain the unlawful occupation or contribute to maintaining it...(para 29)
- examine private enterprises incorporated in the State and non-profit or non-governmental organizations registered in the State and their dealings with the State of Israel and the Occupied Palestinian Territory...(para 30)
- require a thorough due-diligence review of these entities and ensure that they are not engaging in any business, activity or financial support that maintains the unlawful occupation or contributes to maintaining it. If a State finds that such entities are engaging in activities that maintain the unlawful occupation, the State must take all reasonable measures to prevent the activities, such as revoking a corporation’s articles of incorporation or revoking a non-profit organization’s registration in that State...” (para 30)

They also explicitly describe the real risk of States failing to fulfill their international legal obligations, in particular regarding the “issue of genocide” as “all States are on notice that Israel may be or is committing internationally wrongful acts in both its conduct in the military operations in Gaza and its unlawful occupation of the West Bank, including East Jerusalem.” Therefore, “unless States cease their aid and assistance to Israel in the commission of these acts, those States shall be deemed to be complicit in those internationally wrongful acts” (para 23).

Additionally, they are contraventions of domestic law. For example, international war crimes are indictable offences under the Criminal Code in Canada, based on the interplay of the Crimes Against Humanity and War Crimes Act, the Geneva Conventions Act, and the Interpretation Act. This applies not only to individuals, but to all "legal persons" including "(a) a public body, body corporate, society, company, firm, partnership, trade union, or municipality, or, (b) an association of persons that is i) is created for a common purpose, ii) has an operational structure, and iii) holds itself out to the public as an association of persons."

These violations are not limited to the oPt but include the occupied Syrian Golan. There are countless UN resolutions affirming the existence and illegality of Israel's occupation in the Syrian Golan and its responsibility to uphold international law including the [Fourth Geneva Convention](#). These resolutions include but are not limited to: [UNSC Res 237](#) (1967), [UNSC Res 497](#) (1981), [UNGA Res 78/77](#) (2023), [UNGA Res 77/125](#) (2022), [UNGA Res 76/81](#) (2021), [UNGA Res 75/99](#) (2020), [UNGA Res 74/90](#) (2019),

Investments, such as those held by CPSPPs in companies complicit in violations in the oPt and the occupied Syrian Golan, can be prosecuted domestically. For example, "aiding and abetting" war crimes is applicable in the domestic sphere. [Section 21 of the Criminal Code](#) defines "aiding and abetting" as "everyone is party to an offence who (a) actually commits it, (b) does or omits to do anything for the purpose of aiding any person to commit it or (c) abets any person in committing it." As outlined in *R v Briscoe* (2010 SCC 13), the two central components to prosecute this offence are i) proof of pre-knowledge and ii) intent. Contributing to weapons supplies for the Israeli military – whether through investments or exports – materially supports violations of international humanitarian law. The 2024 ICJ AO, and longstanding Canadian policy, make it essentially impossible for entities to suggest they do not have a priori knowledge of secondary liability.

## Context for the Analysis

We have used five main sources to conduct this analysis: [Who Profits](#), [AFSC Investigate](#), [UN Database](#), [Canada Stop Arming Israel](#) (as hosted by World Beyond War, WBW), and [Don't Buy Into Occupation](#) (DBIO) [see Appendix B for a brief description of each]. Each of these organizations includes companies for which there is a significant amount of evidence linking them to occupation crimes.

Perhaps the most important thing to note is that this analysis only includes companies that are registered / issued under certain US legislation. Therefore, the SEC filings we use in this report represent only a fraction of the investments made by each of the banks. For example, investments in companies that are only listed on the Toronto Stock Exchange, like the Canadian company WSP Global, will not appear on quarterly SEC filings. This also means Israeli companies not listed / registered under US security laws, such as Israeli banks, will not be included in this analysis. Therefore, the figures represented in this report are likely largely underestimated.

Finally, while we include some comparisons between our 2024 analysis of these entities, it is important to note that they are not equal comparisons. For instance, a significant number of companies have been added to the AFSC Investigate list since that time. Similarly, WBW has updated their list of companies, and finally, we did not include DBIO in our 2024 analysis. Our 2024 analysis was used as part of a submission to the UN Special Rapporteur Francesca Albanese, in response to her call for input for the report of the Special Rapporteur on the occupied Palestinian territory to the Human Rights Council (HRC) 58th session. To check out our previous advocacy against CPSPs, review the ["Canadian Pensions Complicit in War Crimes and Genocide"](#) page on our website. The current report will also be sent to Special Rapporteur Albanese. She will be reporting back to the UN HRC in July 2025.

In each table below, we provide a list of sources for each company. The following legend represents the list of sources we used:

- WP: Who Profits
- A: AFSC Investigate
- W: Canada Stop Arming Israel
- U: UN Database
- D: Don't Buy Into Occupation

In addition to providing a list of complicit investments for each pension plan, we have also categorized each company based on the types of activities in which it participates. This is based on evidence provided by Who Profits, AFSC Investigate, Canada Stop Arming Israel, and Don't Buy Into Occupation. The seven categories we use are:

1. weapons manufacturing / supply and/or military support;
2. security services or supplies;
3. construction equipment, materials, or services for the demolition/destruction of occupied land/property;
4. services or utilities that support settlement maintenance;
5. exploitation of natural resources;
6. providing banking / financial operations or support;
7. surveillance / identification equipment, materials, or support.

# ANALYSIS

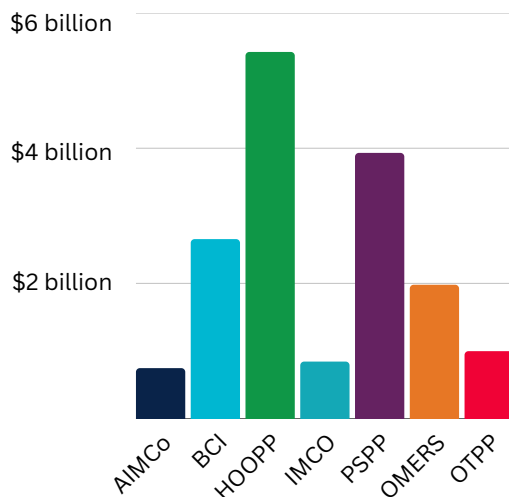

The seven pension plans included in this report are:

- **AIMCo** (Alberta Investment Management Corporation)
- **BCI** (British Columbia Investment Management Corporation)
- **HOOPP** (Healthcare of Ontario Pension Plan)
- **IMCO** (Investment Management Corporation of Ontario)
- **PSPP** (Public Service Pension Investment Board)
- **OMERS** (Ontario Municipal Employees Retirement System)
- **OTPP** (Ontario Teachers' Pension Plan)

Together, these pension plans hold over \$16 billion USD of investments in companies actively participating and/or complicit in violations of international law in the oPt / occupied Syrian Golan.

## \$16,574,623,236 USD

As detailed through the remainder of the report, each of the CPSPPs has complicit investments, with the majority of complicit investments in companies that support surveillance, weapons, and/or settlement maintenance.

# Alberta Investment Management Corporation

Overall total of Q1 investments (SEC) **\$ 14.6 billion**

# FREQUENTLY ASKED QUESTIONS

## **Will pensions really divest?**

There is precedent for divestment. For instance, some pension funds have divested from certain sectors based on moral / ethical issues. The CDPQ announced in 2021 that it would divest from all oil production investments by 2022 because of “environmental concerns.” Other pension funds like Healthcare of Ontario Pension Plan (HOOPP) follow socially responsible investment principles such as refusing investments in tobacco or certain firearms companies. There is precedent to follow, but we must increase the pressure.

## **What if they say they cannot divest because of their fiduciary duty?**

Any fiduciary that has demonstrated ‘negative screening’ (i.e. the exclusion of certain companies or sectors from investment) towards certain companies or industries that are deemed against the interest of their clients (such as HOOPP excluding tobacco companies and certain arms manufacturers or CDPQ excluding oil companies) can clearly extend this negative screen to exclude companies profiting from genocide. While some fiduciaries may argue they are invested through an index or cannot exclude certain investments due to the costs, if they have practiced any sort of negative screening in their portfolio construction then it is clearly not an insurmountable issue for them to address.

## **In what ways have Canadian pension plans supported Israel’s occupation and apartheid?**

CPSPPs have directly invested in companies actively supporting the illegal military occupation. In doing so, they have allowed Canadians to inadvertently invest in these same companies. CPSPPs have also bought into many market indices which include these same companies and have allowed Canadian investors to buy into the same indices. Canadian banks, credit unions and caisse populaires, trust companies, insurance companies, pension funds and other financial institutions are complicit through their direct and indirect investments.

# APPENDIX A:

## Brief Description of Sources

The UN Database: The OHCHR Database, originally produced in 2020 as a result of a request for public participation, includes “business enterprises domiciled in Israel, in the Occupied Palestinian Territory or abroad, carrying out listed activities in relation to the Occupied Palestinian Territory” who are engaged in any of 10 identified activities.[1] These 10 activities are: a) supplying equipment/materials that facilitate construction/expansion of settlements/wall; b) supplying surveillance/identification equipment; c) supplying equipment for demolition or destruction; d) supplying security services/equipment/materials supporting settlements; e) providing services/utilities to support settlements, including transport; f) providing banking and financial operations related to settlements; g) using natural resources for business purposes; h) polluting Palestinian villages; i) rendering captive Palestinian financial and economic markets; and j) using benefits/re-investments owned in any part by settlers, used for settlements. As of June 2023, 97 businesses were listed in the OHCHR Database; however, another review is underway. The UN Database does not include business enterprises engaged in activities in the occupied Syrian Golan as they are outside the scope of the initial Human Rights Council Resolution.

Who Profits: Who Profits (WP) is an independent research centre focused on exposing the financial involvement of international companies in the ongoing Israeli occupation of Palestinian and Syrian land and people. As part of their methodological process, WP i) examines public records, conducts field tours, and submits Freedom of Information requests (FOIAs), ii) uses a peer review process for all company profiles, and iii) allows all companies the opportunity to comment prior to publication.

AFSC Investigate: “Investigate” is a project of The American Friends for Services (AFSC). AFSC Investigate focuses on corporations who are involved in oppressive state violence, while promoting standards for corporate responsibility/human rights. Like WP, AFSC Investigate i) examines public records, ii) conducts field research (when possible), and iii) cross check information against legal documents and FOIAs. They also use information from other trusted sources, such as WP.

Don't Buy Into Occupation: Don't Buy Into Occupation (DBIO) is a coalition between 24 groups, including Palestinian, regional, and European organizations. DBIO focuses on highlighting the relationships between businesses in the oPt and European financial institutions. DBIO outlines their methodology, including the scope of their research, how they selected each enterprise, how they defined financial relationships, and a description of the due hearing they provided for all companies / institutions.

Canada Stop Arming Israel: World BEYOND War (WBW) is a global nonprofit organization (NPO) that uses educational, activist, and media work to advocate for ending all war. In collaboration with various organizations, WBW has compiled a list of weapons companies involved in arming the Israeli military, as well as additional corporations in Canada that support the Israeli military. As per a discussion with WBW, their methodology involves in-depth research to identify evidence that directly links a company with the Israeli military.
